

# Preamble to RoBouwtics Symposium: Robotic Building @AE Colloquium

SPRING 2019

DESIGN TO ROBOTIC PRODUCTION AND OPERATION | D2RP&O

## February 21st, 10:00 @Berlagezaal 1

The RB colloquium with invited guest from academia and practice will address the use of computational design and robotic manufacturing to empower architects and allow end-users to participate as co-creators in the design and in the adaptation/ customisation of their environments over time.

10:00-10:15 Thijs Asselbergs: Intro

10:15-10:45 Henriette Bier & Arwin Hidding, TUD: Design-to-Robotic-Production-Assembly and -Operation

10:45-11:15 Roland Schmehl, TUD: KitePower for Autarkic Systems of Production and Operation

11:15-11:45 Jelle Feringa, Aectual: Are robotics challenging the Corbusian maxim "architecture is not building"?

11:45-12:00 Henriette Bier: Q&A / Concluding remarks

RB MSc 2&3 Spring 2019 Team: Henriette Bier | Arwing Hidding | Karim Daw | Vera Laszlo
